

CEREAL DISPENSING

Welcome to Martek – Innovating Sustainable Spaces in Hospitality & Business

At Martek, we're dedicated to transforming spaces with innovative solutions that integrate technology, design, and sustainability. With more than twenty years of experience in custom fittings for the hospitality industry, we understand the dynamic needs of modern hotels and office environments.

Join us in creating eco-friendly, sophisticated dining and break areas that not only elevate the user experience but also make a positive impact on the environment. Discover how our expertise can enhance your space and showcase your commitment to sustainability.

Introducing the Future of Breakfast: Cereal Dispensing Stations

In our commitment to sustainability and operational excellence, we proudly introduce the Zero Waste Cereal Stations—a cornerstone in eco-friendly practices for both hospitality and office environments.

Designed to balance luxury with environmental responsibility, our cereal stations are crafted to reduce both plastic and food waste, streamline breakfast and snack services, and enhance the experience for guests and employees.

Transform Your Breakfast Offerings with our Cereal Stations

Our vision for the Zero Waste Cereal Stations extends beyond just offering a product—it's about fostering a culture of sustainability within both the hospitality and office environments. These stations are engineered to minimize both food and plastic waste, providing a seamless, customizable solution that can be proudly showcased not only in hotels but also in office break rooms. With Martek's Zero Waste Cereal Stations, any space can step into the future of responsible and impressive service offerings.

Your Brand, Your Message: Custom Cereal Dispensing Stations

From precision engraving on our Classic and Premium models to full-scale graphics on the Plus options, we ensure your branding and messaging are prominently displayed. Elevate your space with a solution that not only meets your aesthetic needs but also communicates your commitment to sustainability.

Trusted by Brands: Our Client Partnerships

"Martek's Zero Waste Cereal Stations have transformed our breakfast service, significantly reducing waste while enhancing our guest experience."

Explore the Details: A Closer Look at Our Dispensers

For nearly two decades, we have been providing top-quality dispensers, carefully selecting our suppliers to ensure each unit offers longevity and ease of use. Our entire range is BPA-free and designed with user-friendly features, including flow control settings.

As the largest supplier of dispensers in the UK, we not only offer a comprehensive selection but also maintain a full inventory of spare parts. Whether you need a replacement label holder or any other part, we are equipped to assist you for years to come, ensuring your dispensers continue to perform optimally.

Built to last

Manufactured from BPA free, long-lasting materials.

Easy to Clean & Dismantle

It takes less than one minute to dismantle due to monoblock body.

Flow Control

Three positions with easy access to adjust the flow according to the size of the product, reducing wastage.

Quality Guaranteed

We stand behind the excellence of our dispensers with a robust warranty.

Lid Locking System
To guarantee product hygiene.

100% Recyclable
Materials have been carefully selected (made from part recycled material).

Measuring Gauge
To monitor stock levels without having to pull the dispenser forward.

Label Holder
Display key product information in this large label holder.
